

Open your retail platform
up to the future: with
com|CONNECT from
M&P Business Solutions.

ZUHÖREN. BERATEN. UMSETZEN.

com|CONNECT from M&P Business Solutions – so your online shop and ERP system work hand in hand.

Your customers want to open new doors to the future in their online shop? Or get their retail space set up securely first with tried-and-tested solutions? Either way: they can rely on a perfect connection that guarantees them a perfect link between Microsoft Dynamics 365 Business Central and their online sales channels now and in the future: **com|CONNECT**.

Easy to control and customisable to the requirements of your company:

com|CONNECT from M&P manages your digital sales – regardless of whether your customers operate an online shop and/or a retailer portal with Magento or Shopware or sell on marketplaces such as eBay and Amazon.

The scope of services of **com|CONNECT** offers you sustainable added value:

- » **Integration of Magento and Shopware into Microsoft Dynamics 365 Business Central (BC)**
- » **Integration of eBay and Amazon into BC**

- » **Expanded item inventory maintenance in BC possible (short- and long texts, item properties, category assignments, images, documents, links)**
- » **Transferring of prices and stock**
- » **Collection of customer access, contacts and customers**
- » **Transmission of order status**
- » **B2B and B2C support**

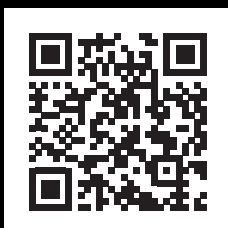

Put an end to countless tabs and copy-and-paste workouts. Stop wasting time that your customers would rather invest in product development or customer consulting: With **com|CONNECT** your customers will increase their sales ability sustainably! They can implement it themselves or rely on the competence of M&P

Business Solutions from the very beginning – a partner that accompanies your customers securely and flexibly on their way into the future: We support your customers during implementation, in the sales process and in operation. A commission model that we can set up on request and additionally supports the increase in sales of your customers.

Partner training or cooperation with industry-specific ISV solutions is possible at any time.
